

AN OVERVIEW OF THE

CITY OF MELTON

SEPTEMBER 2021

CITY OF MELTON

State Of The Market

Melton is home to 43 active land projects with a median land price of \$329,000 and a median land size of 388sqm as of June 2021. The median land price increased by 11.0% year on year due to the lack of land available in the area as well as a reduction in the land size.

Within Melton, Burnside has the highest median land price \$480,000 increasing by 17.2% over the last 12 months whilst Strathulloh has a median land price of \$275,000, increasing by 0.4% in the last 12 months.

Rockbank's median house price increased by 4.9% to \$465,000 over the last 12 months (May.'21). Deanside's median house price is at \$651,000 and Fraser Rise has a median house price of \$640,000, up \$30,000 over the last 12 months to May.'21.

Consumer confidence remains strong with the Westpac-Melbourne Institute Index of Consumer Sentiment stating that 'consumer house price expectations remain very bullish. Over 70% of consumers expect prices to rise further over the next year with 20% expecting double digit price growth'.

In the short-term, demand will continue to outstrip supply in all markets despite prolonged restrictions. The property market will remain strong particularly within the greenfield areas as buying land or off the plan is an easier process than purchasing an established house during lockdown.

Median Prices and Lot Sizes | Jun.'21

1

There were

\$215,613,000

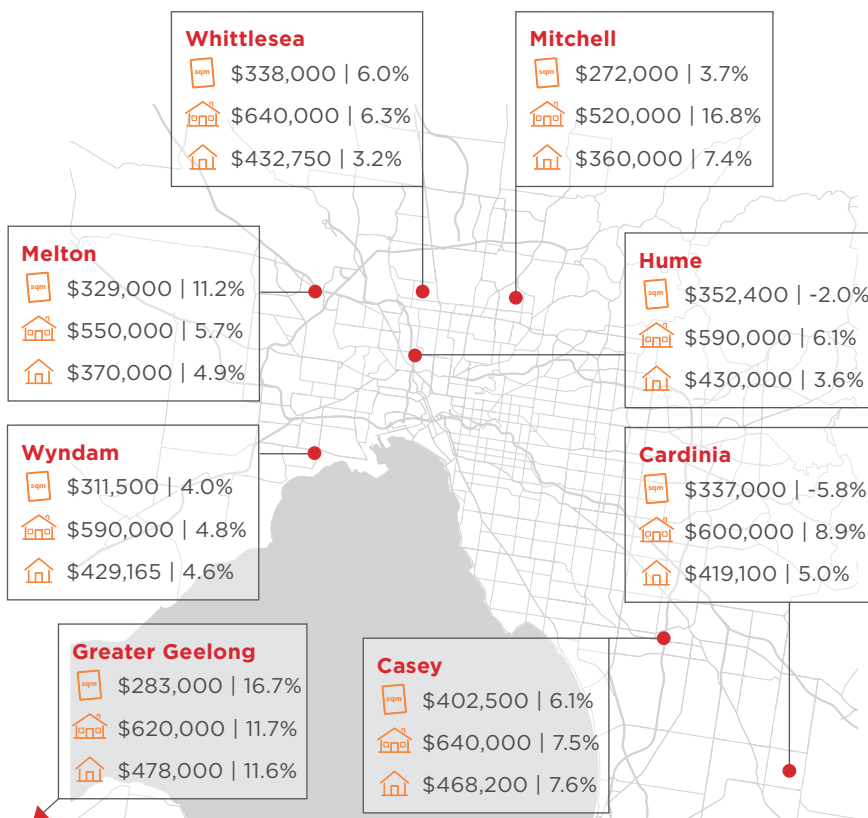

worth of residential buildings approved in Jun.'21, up from \$131,002,000 in Dec.'20.

CITY OF MELTON

What to look for when buying a block of land

Buying a block of land on which to build a house is often the Australian dream. There's nothing quite like coming home to that brand new home feeling where you've created a haven that's designed to enhance your family's unique lifestyle. But before you buy a vacant lot – rather than a house and land package – do know that there are a few extra factors to consider. Have a read below of Resi-Ventures' block-buying checklist.

- 1. Location, location, location.** Is your block close enough to shops, schools and public transport? Perhaps your family needs the convenience of parks, sporting facilities or medical centres nearby. Are there firm plans for these amenities to be developed in the near future?
- 2. Extra building restrictions** placed on your block by your developer in addition to council regulations such as the style of the house, materials used, the maximum allowable height or even how many cars you can park in the street and for how long. These will be in the design guidelines.
- 3. Find out what future roads and infrastructure** is planned through your local council, this can definitely have a positive impact on convenience and liveability.
- 4. Understand what easements** apply to your block. These will determine the size and shape of your new home.
- 5. Building on a sloped block** can add more costs in terms of digging and retaining walls. So look for land that is as flat as possible to save some funds. It's also easier to build on a block that's a **regular shape** like a square or rectangle.
